

Franziska Bechtold

Hey there! My name is Franziska Bechtold and I am a strategic and hands-on Senior UX/UI Designer (among other things) with over 9 years of experience in Design with a background in brand advertising, marketing, event and project management. My expertise covers the full spectrum of advertising, brand communication & design, user research, experience and interface design, storyboarding, visual design and collaboration with developers as well as visual artists (3D, CGI as well as photography). I am a big believer in fostering a positive team culture and strong relationships.

Top 3 Super Powers

Strong left-brain-right-brain-balance, with experience in both design and project management. This helps me communicate within interdisciplinary teams and building the bridge between design thinking and project planning.

Exceptional empathic skills enable me to quickly forge strong and trustful relationships with clients as well as team members. I understand their needs and intuitively adapt to their way of working as well as communication.

Calming presence in high-pressure scenarios which i extend to junior designers under my mentorship to ensure they remain confident and focused, even amidst challenging circumstances.

Experience

Senior UX Designer

intive GmbH, Munich, DE

04/2023 - Present

- Responsible Designer for Implementation Design for Cookidoo App, Vorwerk
- Lead Designer for toom Baumarkt App
- Successfully lead the Design for Flughafen München Passngr App
- Facilitating numerous workshops (online & offline) for both clients, developing strategy frameworks and roadmaps
- Successfully contributing to contract elongations for both projects
- Mentoring (Junior) designers and providing guidance on developing their professional skills
- Fostering relationships between interdisciplinary teams by proactively introducing new formats
- Strong client relationship bonds; First point of contact regarding any topic apart from budgets and staffing

Senior UX/UI Designer

SMAL GmbH, Munich, DE

10/2020 - 02/2023

- Lead Designer for Elgato since 2020; Implemented 40+ pages with this client and constant website maintenance in addition
- Successfully lead multiple projects ranging from AMP Robotics to Playboy to Sports Illustrated
- Mentoring of junior designers and interns and working on their professional skills
- Independently leading short and long term projects, workshops, and client meetings. Building up strong client relationships and constantly working on improving internal workflows within interdisciplinary project teams.

UX/UI Designer

SMAL GmbH, Munich, DE

10/2018 - 10/2020

- Created Wireframes, Storyboards and Visual Design for websites and apps like Enphase Energy, Corsair Gaming and Sunpower
- Worked closely with visual creation team members (Photo, Film, CGI) and Developers. Interdisciplinary teamwork allowed me to develop a deep understanding of a project's possibilities, requirements and constraints.
- Prepared and executed branding workshops
- Lead a continuously ongoing website maintenance project and held constant client communication including effort estimation, design presentation and planning.
